Protect Your Finances and Your Identity When Managing Your Money!

We all know the basics of safeguarding personal information, but when you are out and about, we want to remind you of a few best practices when managing your finances remotely.

- 1. Don't Use Public Wifi** Although it seems convenient to log into your financial accounts while at the local coffee house, we urge you NOT to do this. It's not a secure connection, and the patron next to you could be hacking your information as you sip your latte.
- 2. Choose Good Passwords** A good password has a combination of letters, numbers, and symbols. Don't use your anniversary, birthday or your dog's name. Safeguard your passwords and PINs.
- 3. Recognize the Fakers** Scammers are more clever and creative than ever. Their attempts to get your personal info look legit and official. Please know that we will NEVER call you and ask you for personal info.
- 4. Review Your Account Transactions** Society moves at a fast pace, but we encourage you to review your financial information. That includes debit card transactions, credit card purchases, ATM withdrawals and all of the activity that pertains to your money. Identity theft and fraud can be stopped quickly if you notice unauthorized transactions on any of your accounts. Report it immediately.

We recently attended the Materion Corporation Annual Fishing Derby in Elmore and had a great time! We sponsored a contest and the winner was the 1st child to bring up a fish to be measured at the designated time won a gift card! Congratulations to Bam Lester, family member of Martin & Gabrielle Swanson!
